

Make it easy!
New one- and two-stage
service pumps

With **only 4 models** you are fully equipped to replace **more than 80%** of the **pumps** on the market, whatever the fuel used (Kerosene, light oil or B10)

AUV and ATUV

2 Service pumps,
with both left & right nozzle outlets, available in two rotations.

The AUV pump is dedicated to **one-stage** burners.

The ATUV pump is designed for **two-stage** burners.

QUICK SERVICE

The 2 AUV models and 2 ATUV models will help you to provide your customer a replacement unit immediately, without any waiting. You don't need any longer to get the exact model to be replaced: a sole service visit and your customer is satisfied.

THE RIGHT PUMP ALWAYS AT HAND

80% of the models on the market, even the specific models, can be easily replaced with these 4 references:

<i>Rotation (seen from shaft end)</i>	1 stage models	2 stage models
<i>Anti-clockwise</i>	AUV 47 L 9877 6P0700	ATUV 45 L 9860 6P 0700I
<i>Clockwise</i>	AUV 47 R 9876 6P0700	ATUV 45 R 9861 6P 0700I

EACH PUMP IS DELIVERED WITH ITS PRACTICAL AND INTUITIVE INSTALLATION INSTRUCTION LEAFLET FOR QUICK SERVICE. INTERCHANGEABILITY LISTS ARE AVAILABLE .

SUNTEC also offers accessories to meet a maximum of interchangeability criteria: G1/4-G1/8 adapters, an adapter flange, coils,...
